Helping women connect to the real source of

# healing, joy and strength

**Audry** is an old soul in a loud world. Her wise, calm, motherly voice and sincerity quickly connect her to her audience. She helps women heal from deep-rooted issues in their hearts (especially in the areas of love, marriage and intimacy), and move into wholeness and joy.

## 2020 KEY TOPICS:

### NOBODY SHOWED ME HOW TO DO THIS WELL

We are a generation of women who fell through the cracks. Many of us came from broken homes and are now the mothers trying to create thriving homes and marriages of our own- but *nobody showed us how to do this well!* Whatever brokenness you have carried from your early life into your now, Audry will show you how God can use the most hurtful parts of your story, and turn them into the biggest blessings of your life. She will share some of her own story to help meet women right where they are in their current struggles in marriage and motherhood. The end result of this discussion will be a sense of clarity in how to move forward, and a motivation to bring your own issues to God's feet in a powerful, realistic way.

### PUTTING YOUR MAN IN GOD'S HANDS

Most married women struggle in the tension of wanting to submit, and yet feeling very angry and discontent with their husbands. This talk will make women laugh and feel understood as Audry shares stories from her own marriage, and ultimately helps walk women into a greater sense of peace and surrender within their marriage. The end result of this discussion will be empowerment for women to let go of control, believe God's word above their feelings, find the blessing of doing less, cultivate the power of respect, and learn how to draw up healthy boundaries inside of marriage.

### FEMININE STRENGTH: THE SECULAR WAY, THE RACHEL HOLLIS WAY & THE BIBLE'S WAY

In the wake of the modern feminist movement a new brand of "Christian Feminism" has emerged. Let's look closely at the social and biblical implications, and learn how to discern what is *almost* right from what *IS* right!
